

SAFETY FIRST. WE'RE IN THIS TOGETHER.

The continued safety, well-being and overall health of our customers and team members is always a top priority.

To do our part to help prevent the spread of illness, our team of employees, agency personnel and drivers that interact with customers have received direction regarding safety measures that go beyond CDC prevention guidelines.

We continue to take every precaution necessary to ensure our moves are safe for all.

Here are some guidelines from the American Moving & Storage Association we want to share to help with any moving activities you have planned in the near future.

Smiles, not shakes

All personnel have been directed to avoid personal contact, so please don't take offense if you don't get a handshake or even an elbow bump. We WILL greet you with a no-contact smile!

Online, video & virtual estimates allow you to plan your move while maintaining social distancing.

Inquire with your coordinator about the various options available.

Germ-free moves by germ-free movers

If you can, please provide your moving crew access to a **sink, soap and paper towels** through-out your move. If this isn't practical, please provide **hand sanitizer**.

Fresh, clean supplies

Use new moving supplies such as paper, boxes and tape; this isn't the time to re-use materials that may be compromised.

Need to reschedule?

If anyone within your household may have contracted Coronavirus, or are isolating due to exposure or potential exposure, call your coordinator as soon as possible. Every effort will be made to accommodate your schedule.

Atlas Transfer & Storage Co. is a member of the American Moving and Storage Association (AMSA) and a certified AMSA ProMover.
